SUMMARY

On-going master's degree in Data Science in Universiti Malaya. Data Analyst Engineer experience for 1.5 years in FinTech industry. Skillset includes: Python, SQL, PowerBI, dbt, Dagster, Airflow, Docker, Git, Spark, R, SAS, Power Automate with basic academic knowledge in Cloud tools implementation.

WORK EXPERIENCE

Data Analyst Engineer in Doo Group

May 2024 - present

1.5 years of Data Analyst experience in FinTech. Led multiple marketing campaigns' data ETL while closely communicating with stakeholders reducing manpower needed to check and verify by 80%. Help developed and maintained layered data warehouse architecture following Medallion Architecture principle providing single source of truth and reducing load on database I/O. Developed multiple Power BI dashboards with SQL and Python for data wrangling and automation tools such as Power Automate following snowflake design pattern cutting manpower needed for manual reporting by 60%.

Credit Risk Modeller in Public Bank Berhad

Sep 2023 - May 2024

0.5 year of Credit Risk Modeller experience in Bank Industry. Help developed and verified the input, output and algorithm of the risk classification tool. Help to UAT (sanity check, provide dummy data, data checking) for country-wide loan approval automation project.

EDUCATION

2025 - present	Masters in Data Science at University Malaya	(GPA: 4.0/4.0)
2020 - 2023	Bachelor's Degree of Science in Actuarial Science at UTAR	(GPA: 3.75/4.00)

PROJECTS

End-to-End ELT Project with Google Cloud Platform

A self-learning project with Google Cloud Platform (GCP) to create an end-to-end data infrastructure using Airflow, Google Cloud Storage (GCS), Dataproc with PySpark, Cloud Run, BigQuery and Looker Studio.

Big Data Management with Hadoop and Apache Ecosystem

[Link to repo](#)

A team project that implements a big data management framework for webscrapped Airbnb data using Docker, Airflow, Python, HDFS, Hive, Trino, Git, ClickHouse, PostgreSQL, Power BI.

CERTIFICATES

AWS: Certified Cloud Practitioner

On-going

SKILLS

ETL & ELT	Python, SQL, dbt, Dagster, Apache Spark, Hadoop, Cloud (GCP)
Data Visualization & Reporting	Power BI, Python, SQL, Power Automate, Microsoft Excel, SAS, R
Data Analysis & Modelling	Power BI, Python
